of fine plaster mouldings

See more DecoCraft designs inside....

Welcome to DecoCraft USA!

DecoCraft USA is a moulding company, or more precisely “the moulding company” that manufactures plaster moulding and has managed to revive the art of fine moulding. DecoCraft USA is one of the few moulding design companies that still employ the plastering method to create mouldings; the method that originally inspired the term “moulding.” Plastering allows for starker and finer designs and of course longer lasting, more durable mouldings. Plaster does not shift or shrink with changes in temperature or humidity, and is widely known as fire proof. All our products are handmade and sculpted in the USA.

At DecoCraft USA we see moulding design for what it is; an art with lots of room for beautiful, delicate and inspired work. We employ people who share our vision; highly skilled, professional designers and knowledgeable plaster installers who work hard to maintain the Decocraft USA standards. And since it’s really all about your vision, we have what it takes to accommodate any idea of yours; designers who will work specifically to create what you’ve got in mind, and a selection of products that will allow you to stick to your budget.

We’ve got what it takes to make it real.

Project Manager,

Joel Klein
